MANYA DM

+91 9591349031 manya31dm@gmail.com

Objective

Innovative problem solver with a deep passion for software engineering. Possesses excellent adaptability and teamwork skills, with a drive to continuously learn and improve. Seeking challenging opportunities to push the boundaries of software development.

Education

Bachelor of Engineering in Information Science **2023 - 2027**
Bangalore Institute of Technology, Bengaluru. *CGPA: 8.8*
PUC, Class XII **March 2023**
Mandavya Excellence PU College, Mandya. *Percentage:96.60%*
SSLC, Class X **March 2021**
Aishwarya International public School, Maddur. *Percentage:94.00%*

Technical Skills

Languages: Java basic, HTML, CSS, SQL basic Data Structure.
Technical Skills and Tools: JDK, Visual Studio, Eclipse, Figma.
Personal Skills: Team work, Problem solving, Adaptability.

Projects

- **Event Management System using java and SQL**: Built an Event Management System using Java and SQL to manage event registrations, scheduling, and database operations efficiently.
- **Tourist attraction connectivity system using Prim's algorithm:** Implemented a Tourist Attraction Connectivity System that calculates the minimum travel cost between locations using Prim's Algorithm.
- **Movie Recommendation System using Java:** Created a genre-based Movie Recommendation System in Java that suggests films from predefined lists based on user input.
- **AI-Based Automated Flashcard**: Built a web application for automated text extraction and summarization, reducing manual effort and improving learning efficiency.
- **Autonomous Chaos Engineering Platform:** SafeChaos is a chaos engineering platform with a FastAPI backend and Streamlit dashboard for creating, managing, and monitoring fault-injection experiments, with results stored in SQLite.

Certifications

Certificate:

1. Participated in 24 Hackathon organised by RV College of Engineering
2. Participated in Basha Bandhu Hackathon organised by Microsoft – May 2025
